Vanguard Cutting Edge Technology

ALIGNGUARD

Air assisted pin registration provides precise media alignment with every print.

PRESSUREGUARD

Provides stability within the negative pressure system which increases the life cycle of critical components.

CUREGUARD

Precisely adjustable LED curing technology allows you to print to more substrates with greater control.

ACCUGUARD

A metal raster strip provides the most accurate dot placement in the industry.

PRINTGUARD

Reduce time and waste with pinpoint accurate print resuming after a crash sensor has been reset.

NOISEGUARD

Twin mufflers reduce the noise level of the powerful media vacuum pumps.

BANDGUARD

Virtually eliminate chromatic banding allowing you to print at faster speeds and better quality.

TIMEGUARD

Increase productivity and reduce labor by accurately printing from front-to-back and back-to-front.

MEDIAGUARD

Measure media thickness with our auto-height detection system in just a matter of seconds.

STATICGUARD

Be proactive by reducing static charges on acrylics and other positively charged substrates.
